 2:00 pm I took the liner called Titanic.  
 Dear Diary,

The dawn was bright and clear. My parents put me on the street so I decided to take the boat that was called Titanic. Once I arrived in the boat it was quite hectic, everyone rushed to find their stateroom. 6:30 dinner arrived, my life in this boat is the best. My life in the boat was better than outside. I didn't like first class people they were the most loved on the Titanic but I didn't like them so I couldn't wait to arrive. I came there in the evening 11:45 pm it was time to go to sleep I felt good in this Titanic but it was always those of the first class who were pampered. We wasted our life in this boat (Titanic). It was time to sleep but a disaster happened.

It was 12:15 pm all the people on the boat were running around I didn't understand why so I went to the guard to ask him. I ask him and he replied that there was a large iceberg in front of us and that there was a problem at the level of the wheel to turn the boat and that suddenly he could only move forward so we did it. Everyone was agitated because of the fear, I reassure people those who were pampered took their time and we were not afraid so I went to see one crew and asked him why they were not afraid and he answered me: "we have more advantage than you one each side of the boat. The iceberg was getting ready, there was us heading straight ahead the steering stopped and so I saw all the first class people getting into the dinghies so I crept up and got into one of the lifeboats. The boat began to sink and a few people in the ship managed to be saved. We survived with 700 people but 1,500 people died.
